The screenshot shows the MongoDB Compass application. On the left, a sidebar lists the databases: 'admin', 'config', 'exp6', and 'local'. The 'exp6' database is selected, and the 'employee' collection is highlighted. The main area shows the 'employee' collection with 4 documents. The first document is expanded, showing its fields: '\_id', 'username', 'id', 'branch', 'mobileNo', 'gender', and 'branchadd'. The second and third documents are also visible. The top bar shows the connection to 'localhost:27017' and the database 'exp6'. The bottom status bar shows the system time as 00:37 on 14-05-2024.
